UCB 100
Hilo, Hawaii

ACHIEVING CLINICAL EXCELLENCE

- ❖ In this workshop, you will learn, in detail, the qualities and practices that can make good therapists into great therapists.
- ❖ You will be taught a system of feedback procedures that can help you develop a profile of your most and least effective moments in therapy – what works for you and your clients.
- ❖ Dr. Miller will present you with concrete, hands-on tools that can immediately boost your clinical abilities and effectiveness.

SCOTT MILLER, Ph.D.

Dr. Miller takes the latest research on effectiveness in therapy and presents it in an engaging and humorous manner. He has published extensively in this area and is the founder of the International Center for Clinical Excellence. Dr. Miller conducts workshops and training in the United States and abroad; helping hundreds of agencies and organizations achieve superior results. His forthcoming book is *Achieving Clinical Excellence in Behavioral Health: Empirical Lessons from the Field's Most Effective Practitioners* (with Mark Hubble and William Andrews).
